

PRODUCTION OPERATOR

Eindhoven, The Netherlands

Xeltis BV in Eindhoven is looking for a Production Operator, willing to work in a dynamic research and manufacturing environment towards the clinical realization of Xeltis' revolutionary products.

Who are we looking for?

Education:

MBO according to Dutch education system or equivalent (preferred but not necessary)

Experience:

Minimum of one-year experience in manufacturing in a similar capacity, preferably in the medical device industry.

Skills:

- Good hand dexterity, attention to detail, and technical proficiency
- Familiar with cleanroom operations (preferred)
- Familiar with operations under quality systems, GMP, etc.
- Familiar with medical device manufacturing (preferred)
- Familiar with chemical solution preparation and safety practices (preferred)
- Familiar with electrospinning processes (preferred)
- Experience with Quality Control (QC) techniques and documentation (preferred)
- Good communication, reliable, independent, goal-oriented, pragmatic attitude
- General computer and software proficiency: email, Word, Excel, etc
- Ability to work in a fast paced, time sensitive environment
- Fluent in English, reading and writing

Activities include:

- Following written work instructions to perform various manufacturing tasks and activities in a cleanroom environment
- Manufacturing prototypes via various manual and automated operations
- Supporting material preparation for prototype manufacturing
- Performing measurements during prototype manufacturing
- Documenting manufacturing and testing activities in various formats (logs, reports, work instructions)
- Collaborating with team on the manufacturing of implantable medical devices

This is a full-time position (40 hours per week) for a period of 7 months.

The assignment location will be Eindhoven, The Netherlands.
