

Financial controller

Xeltis is looking for a financial controller to join the finance team. This position is an excellent opportunity to develop in a broad finance role. A start-up culture is at the core of the company, enabling opportunities and growth pathways.

Xeltis is a clinical stage medical device company with the world's most advanced polymer-based platform of restorative cardiovascular devices. Xeltis' devices naturally evolve into living blood vessels or heart valves within the body through patient's own tissue. The company has a young team of 30 employees from all over the world. "Improving patients' lives" is what drives us to work with joy on a daily basis.

The controller is responsible for the financial administration and preparation of financial reports. Furthermore, the successful candidate will be building a new team to process daily financial entries and support general improvement of processes in the finance department. The controller will be in close contact with the business to enable accurate and complete financial and management reports and will be working closely with the Finance Director.

Roles and responsibilities

- Managing the financial administration, consisting of three entities. One FTE report, who handles the processing of purchase invoices, expenses declarations, bank statements, fixed asset ledger and intercompany transactions
- Managing the payment of purchase invoices and salaries
- Preparing monthly closing procedures including checks and balances
- Preparing monthly financial reports (actuals, budget, forecast) for both internal and external reporting, in accordance with generally accepted accounting principles
- Preparing quarterly financial reports and annual (consolidated) financial statements
- Preparing grant reports and coordinating of audits
- Managing tax matters, including VAT, WKR, CIT and payroll taxes
- Managing the IT Google structure (creating and deleting email addresses and periodic monitoring of access and delegation rights)
- Supporting and driving various projects to improve their financial administration
- Being the first point of contact for suppliers, banks, insurance companies and auditors

Skills and education

- Relevant Bachelor/Master's degree (e.g. Business Economics, Accounting), an additional post-Master is a plus;
- Minimum of 5 years working experience in a similar role or as an auditor
- Hands-on, analytical, accurate, eager to learn and grow attitude
- Excellent communication skills and team player approach
- Independent and taking responsibility
- Fluent in Dutch and English
- Good knowledge of Excel
- Experience with Exact a plus

Offer

- Competitive remuneration
- Personal and professional development options
- Full-time in Eindhoven (flexible working options may be considered)
